LIBERAL SPORT

OUR HISTORY

Liberal is a UK clothing brand and we have been running for two years, operating mainly in the streetwear industry, focusing on high quality aesthetic and interesting design. We have released eight collections up to this point and have experienced quick growth throughout this short period. High quality has been a key feature we've maintained at a consistent standard since we started, and we've carried this through into the sports range. We are an internationally operating brand and are specialising in technical sportswear, mainly teamwear for football clubs.

MISSION AND GOALS

Our aim coming into the sportswear industry is to increase our quality levels even further, which we have done in the 2018 range. Whilst at the same time providing very competitive prices. We look after all of our customers equally and treat them with excellent care and consideration. One of the key features we offer is the flexibility in what we offer in terms of colours, prints and generally tailoring the pieces specifically to your clubs individual requirements.
